Robotics • Block chain • Machine Learning • Internet Of Things

NON-TECHNICAL:

Editing • Networking • Esports • Content Creation

RESPONSIBILITIES

- Students Representative.
- EEE Student IEEE committee Member.

LANGUAGE

- English.
- Tamil.

ABOUT ME

As a passionate and detail-oriented Full Stack Developer trainee, I bring a dynamic blend of technical skills, adaptability, and a strong commitment to continuous learning. Over the past eight months, I have immersed myself in a comprehensive Full Stack Developer training program, gaining hands-on experience in front-end and back-end technologies.

EXPERIENCE

OASYS CYBERNETICS PVT. LTD | SOFTWARE DEVELOPER

FULL STACK DEVELOPER

Aug 2023 - Present | Chennai

In the past one years, I played a crucial role in developing a comprehensive ERP system, showcasing strong proficiency in both front-end (Angular) and back-end (Spring Boot) technologies. I collaborated with cross-functional teams to design and implement scalable solutions that significantly enhanced system functionality. My contributions included designing intuitive user interfaces, developing RESTful APIs, and ensuring software quality through rigorous testing. I excelled in problem-solving, teamwork, and continuous learning, which were key to the successful delivery of high-quality software in a fast-paced environment.

PROJECTS

COOPTEX-ERP SYSTEM

Aug 2023 – present | Chennai

TECHNOLOGIES: Angular, Java Spring Boot, PostgreSQL

- Developed and implemented a comprehensive ERP system to optimize and streamline business processes.
- Integrated key modules such as inventory, sales, and finance, ensuring smooth and efficient data flow between departments.
- Leveraged Angular for dynamic, responsive front-end development and PostgreSQL for secure and scalable database management.
- Collaborated closely with cross-functional teams to enhance system performance and ensure seamless user experience.

UP EXCISE-SUPPLY CHAIN MANAGEMENT SYSTEM

Sep 2023 – present | Chennai

TECHNOLOGIES: Angular, Java Spring Boot, MySQL

- Developed a responsive frontend using Angular for managing inventory, orders, and deliveries.
- Implemented backend services in Java Spring Boot to handle business logic, order processing, and supplier management.
- Utilized MySQL for efficient data storage and retrieval of supply chain information such as product details, inventory levels, and order statuses.
- Integrated frontend and backend using RESTful APIs, ensuring seamless operations from order placement to delivery tracking..

CERTIFICATE

- HackerRank Basic and Intermediate SQL Certificate.
- HackerRank Basic Angular Certificate.
- Completed java and SQL training at Qspiders Academy with certificate of excellence.
